Hi Felix,

Nice talking to you this afternoon.

I downloaded the Ausgrid GIS and sketched the new LV cable route. Please refer to the attached.

- Based on the attached sketch, ASP/3 design fees are \$3,900.00 + GST, and it covers the following:
 Site visit before the design.
 Contact Ausgrid and submit the Proposed Design Scope.
 Prepare the full design package (drawings, calculations, SER, AVS and notification, etc.).
 Get ASP/3 design certified by Ausgrid.
 Pre-construction on-site meeting with Ausgrid and ASP/1 (one time)

If you are happy with this figure, I will send you the formal

BTW, fees charged by Ausgrid are not included in above \$3,900.00 + GST.

If you need any enquiries, please let me know.

Thanks and have a good weekend.

Kevin Dai 0415558323
